SUMMARY

Software Development Engineer with hands-on internship experience in full-stack development, AI automation, and data engineering. Proficient in Node.js, Express.js, React.js, and MongoDB — building and deploying scalable REST APIs and production-grade web applications.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), C++, Python (Foundational), HTML5, CSS3, SQL (Foundational)

Frameworks & Libraries: Node.js, Express.js, React.js, FastAPI

Backend & APIs: REST API Design, JWT Authentication, CRUD Operations, API Integration, Middleware

Databases & Tools: MongoDB Atlas, Git, GitHub, Postman, Alteryx, Netlify, Render

Concepts: OOP, Agile Development, SDLC, Data Cleansing & Transformation, DSA

EXPERIENCE

Software Development Intern

Feb 2026 – Apr 2026

HCL Technologies

- Built an AI-powered customer engagement chatbot using React.js, Python and third-party AI APIs, automating query resolution workflows for business applications
- Integrated conversational AI APIs to enable dynamic response generation, reducing manual customer handling effort by an estimated ~35%
- Collaborated in agile development processes, strengthening expertise in software engineering

Data Analytics Intern

Jun 2025 – Jul 2025

Alteryx

- Designed and automated 15+ end-to-end data workflows in Alteryx Designer, cutting manual reporting time by ~40%
- Cleansed and transformed structured datasets of 10,000+ rows, improving data accuracy for 3 analytical case studies reviewed by senior analysts

PROJECTS

AgroVision – Smart Agriculture Management Platform

| *Node.js, Express.js, MongoDB, React.js, REST APIs, OpenWeatherMap API, GitHub, Netlify, Render*
<https://agrovision-frontend.netlify.app>

- Built production-deployed full-stack platform with dedicated farmer and vendor dashboards
- Integrated OpenWeatherMap API for real-time weather insights
- Architected 10+ RESTful API endpoints using Node.js, Express.js, and MongoDB, handling 100+ crop records with optimized query performance

Risk Sentinel – Banking Risk Policy Intelligence System

| *React.js, Python, REST APIs, LLM Integration, GitHub*
<https://banking-risk-analysis.netlify.app>

- Developed React.js frontend for an AI-powered banking risk Q&A system with dynamic risk scores, severity levels, and regulatory compliance references
- Handled async API integration, conditional UI rendering by risk severity, and responsive layout across devices

EDUCATION

Medi-Caps University

Aug 2022 – May 2026

B.Tech. in Computer Science & Engineering

Indore, India

CGPA: 7.09

ST. Stephen's Convent School

May 2022

Higher Secondary Education (Class XII)

Chhanera, India

Percentage: 83.2%
